WWW.ROLLINGTARPS.COM

At Chameleon, we take pride in designing and manufacturing the most innovative rolling tarp systems on the market.

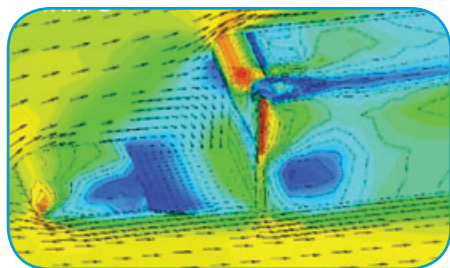

When we design a rolling tarp, we keep in mind that you want to haul larger & heavier loads, keep your loads dry and have a system that opens and closes trouble-free. They are designed to give you peace of mind and to save you money.

Read more to find out why Chameleons are the most user-friendly rolling tarp systems you'll ever use.

WHY CHAMELEON?

- 1 Haul Larger Loads**
Our compact corners and unintrusive tensioning system gives you the most load volume on the market.
- 2 Haul Heavier Loads**
We minimize the weight of our systems so that you can maximize the weight of your load.
- 3 Safety First**
Our systems are fully operable without putting a foot on the truck or trailer.
- 4 Authorized Installation & Service Network**
Chameleon products are proudly supported by a family of installation & service centers across North America. Support is also available through our online web portal and toll-free direct line.
- 5 Reduce Downtime**
The modular design of every Chameleon permits quick and easy repairs in case of unfortunate accidents.
- 6 Built-in Quality**
Each product is manufactured under strict quality controls. All parts are carefully selected or made in-house, and undergo 28 inspection points before being shipped.
- 7 In-House Engineering**
Our engineering staff is continually developing and updating our rolling tarp systems, offering upgrades and retrofit guides to our existing systems.
- 8 Increase Driver Satisfaction**
Retain your best drivers with this easy-to-operate and reliable tarp system.
- 9 Customize Your Chameleon**
We offer the accessories that you want & need (van doors, digital photo graphics, double lift bows & more).
- 10 2nd Generation Family Owned & Operated**
We take great pride in our product and personalized service, going the extra mile to exceed our customers expectations.

AERODYNAMIC HEADBOARD DESIGN

The Chameleon headboard and integrated air deflector were optimized using **air flow analysis software** to offer you **improved fuel economy** while reducing the effects of tarp inflation and flapping. Features our standard white air deflector (with recessed LED clearance lights), and aerodynamic wings.

STANDARD FEATURES

EASY-TO-OPERATE FRONT TENSIONING HANDLE AND WING

Open and close the front of the tarp system with our unique integrated front tensioning handle. In two simple steps, you can roll the system back, with **no tensioning tools required!**

ADJUSTABLE REAR LOCK

The adjustable rear lock provides a simple, no tools required method of opening the system from the back. It also gives you the ability to **fine tune your tarp tension.**

ROLL-UP DOOR WITH WINDING DEVICE

Our easy-to-use roll-up door with winding device allows **100% load clearance** by rolling onto the roof. We also offer the option of a rope-operated door at no extra cost.

DUAL-MUDGUARD SEALING

Keep road spray away from your loads with our standard dual mudguards. Installed along the rails, they are **flexible enough to wrap around straps and chains** to effectively seal out water, snow and grime.

REMOVABLE RAILGUARD

Protect your rolling tarp systems' rails when loading or unloading. Our standard removable railguard **protects the rails from impact** or damage caused by forklifts or other loading equipment.

LIGHTEST WEIGHT

GREATEST LOAD VOLUME

106" OUTSIDE WIDTH ON 102" TRAILER

AVAILABLE OPTIONS

Every Chameleon Rolling Tarp is **designed specifically for your needs**, with a wide variety of custom options available.

CUSTOMIZED AIR DEFLECTOR

Customize your air deflector with paint color matches, LED lights, company logos or graphics.

STAINLESS STEEL HEADBOARD

Upgrade your Chameleon's headboard with sleek, polished stainless steel.

DOUBLE LIFT BOWS

Decrease tarp hang from 8" to 3" when the system is retracted, giving you extra height clearance for high loads.

HEADBOARD ACCESS DOOR

30" x 60" opening with 3-point locking system. Custom size and configurations available.

DIGITAL PRINTED GRAPHICS

Maximize your Chameleon's road presence by advertising your company with custom graphics. Create your own moving billboard.

OVERSIZE WIDTHS & HEIGHTS

Customize your system height and width to accommodate your specialized loads.

DOOR LIFTING DEVICE

The door lifting device works in conjunction with our rope-operated door to lift it up and out of the way of the load.

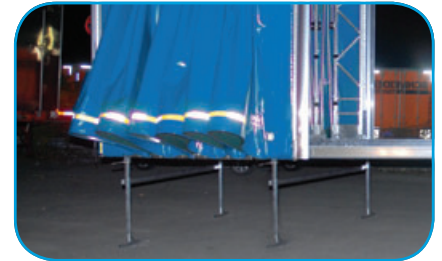

RAIL EXTENSIONS

Allows access to the entire length of the trailer by rolling the system onto the rail extension.

VAN-STYLE REAR DOORS

An alternative to our standard roll-up doors, our van-style doors offer additional security and accessibility.

ROLL-OFF STAND

Oversize loads? No problem. Roll the tarp system off the trailer and store it with our roll-off stand.
